Strategic Defense Solutions, LLC

Strategic Planning, Management, and Assessments

Capability Statement

Strategic Defense Solutions (SDS) specializes in strategic planning and data collection & analysis providing our clients with personnel support and innovative program solutions. Our current and previous contracts have been in support of the Department of Defense (DoD): Joint Staff, United States Central Command (USCENTCOM), United States Special Operations Command (USSOCOM), and United States Africa Command (USAFRICOM), the U.S. Army III Corps Mission Installation Contracting Command, as well as the Department of Homeland Security (DHS) Transportation Security Administration (TSA). SDS has conducted strategic planning for technical programs/activities since 2006 and continues in 2019. Our senior project and program managers actively provide analysis and recommendations to government decision makers from combatant commanders and program directors to the highest levels of multiple federal agencies and the White House.

SDS has utilized the products of the Adaptive Planning Process and Joint Operation Planning and Execution System (JOPES) to include the creation of Force Flow Time-Phased Force and Deployment Data (TPFDD) for strategic and operational level plans and deployments. SDS also provided senior defense managers to produce the USCENTCOM theater posture plan under the direction of the Director of Strategy, Plans and Policy, and annually provides highly sought after planning and execution expertise and recommendations to the Joint and OSD staffs in the Pentagon. SDS has conducted campaign plan assessments and recommendations for USSOCOM and USCENTCOM, through written reports, oral presentations, and PowerPoint briefings to the leadership of both commands. SDS personnel are well known throughout the DoD as subject matter experts in conducting deliberate and crisis action planning that led to operations requiring deployment to the USCENTCOM area of responsibility since 9/11.

Areas of Capability

- Strategic/Deliberate Planning
- Program/Project Management
- Senior Operations Analyst
- Plan and Program Assessments
- Operational Assessments
- Subject Matter Expertise
- Administrative Support
- Functional Analysis
- Process Improvement
- Change Management
- Test and Evaluation
- Systems Development
- Threat Assessments
- Research Analysis
- Threat Inject Carriers
- Training Programs

Four Stages of Evaluation

Differentiators

Strategic Defense Solutions team maintains unique and diverse skill sets, and expert knowledge across multiple agencies. As a security innovator, SDS has designed systems and developed concepts to support the Department of Homeland Security's mission. SDS personell have led deployment and posture planning while in uniform and as contracted support for the USCENTCOM area of responsibility since 1998 without interruption until current. Similarly, our counterterrorism planning experience uniquely spans USCENTCOM and USSOCOM and their subordinate commands.

What differentiates SDS from its competitors is our ability to adaptively plan and precisely execute new requirements for the Middle East, Central and South Asia.
